MCSI via experience: individuals who have substantial experience within the industry can apply for Member status. Criteria for this route is available to view at cisi.org/mrules. Individuals who become Members via experience can then reach chartered status by following the same route as those who have achieved a level 6/7 non-CISI qualification.

ACSI and MCSI members who have attained their grade via a stand-alone award or single unit, are also eligible for Chartered MCSI status after the relevant CPD years, but cannot progress to Chartered FCSI without completion of the full CISI Level 6/7 qualification.
